

## **Job Posting**

February 10, 2017

**Position Title:** Network Engineer  
**Work Location:** Information Technology Department

The Nassau County Sheriff's Office is seeking candidates for the position of **Network Engineer**. Successful candidates will have a positive attitude with strong communication and interpersonal skills as well as the ability to work in a fast paced environment.

This position is responsible for: (includes but is not limited to)

- Provide recommendations and solutions to the Technology Manager regarding network systems, current networking and security capabilities
- Design and implement solutions based on business requirements
- Resolve complex network and system problems (e.g., protocol analysis, interoperability problems, routing, and spanning-tree)
- Participate in the strategy and development design of architecture
- Implement network security systems and counter measures

### **Required Qualifications:**

- Five (5) years of network and server support experience in a fast paced environment.
- Three (3) years of telecommunications experience working with Ethernet, DS1, DS3, PRI, and POTS
- Three (3) years working with Cisco UCS, Cisco switchers and routers, Cisco ASA with Fire Sight and Virtual Defense Center, Cisco UCM and CUC.
- Professional Certification – CCNA or CCNA Data Center minimum.

### **Desired Experience:**

- Three (3) years experience working with VMWare – with a solid understanding of HA, DRS, VDI (View Horizon) and SRM.
- Three (3) years experience working with NetApp FASS-2040 and higher; ONTAP 8.0 or higher.

In addition to the above requirements, each candidate must qualify in accordance with "Support Staff applicant requirement" and each candidate will be required to show proficiency in a variety of hands-on lab based scenarios. Proficiency testing will be utilized to either qualify or disqualify a candidate's competency of required job responsibilities.
